

LENTEN EARTH

CENTER EARTH COLLECTION 1

hello and welcome to center earth.

at center earth we hope to produce high-quality clothing, made from sustainably and ethically-sourced products with a large emphasis on simple yet beautiful designs inspired by nature and handmade art.

this collection (f/w 2020) was heavily inspired by a roadtrip i took from Denver to Los Angeles in the summer of 2019. after working my first real job, i began to realize the things in life that matter to me: love, nature, and community. with that in mind, i started *center earth*.

each item in this collection started out as a simple sketch in a journal i carry or on sticky notes laid across my room. it has been incredibly rewarding to see each item come to life and eventually into your home.

i really hope you appreciate what i have made :)

see you soon
- zach izzard
